

I recently received information regarding an issue the FCC is considering that might affect a radio station that I enjoy listening to. The radio station, K-LOVE, is one of only a few stations in my local listening area that provides the alternative of Christian music. It's the only one that provides the style of Christian music that I enjoy. I would be extremely disappointed if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. I feel that K-LOVE fills an important niche for me personally and many others in my community. I have waited for years to have access to a radio station that plays the type of music I enjoy and I feel that keeping K-LOVE on the air in my community provides a welcome alternative for me and many of my friends and family. Thank-you for allowing me the opportunity to express my opinion!
